**Equal Footing Foundation and the Boys & Girls Clubs of Fairfax to
Co-host Awards Dinner on Friday, September 28**

Rep. Frank Wolf and NVTC Chairman John C. Lee, IV, to Be Honored

HERNDON, VA—Sept. 25, 2007—The Equal Footing Foundation, the charitable arm of the Northern Virginia Technology Council with programs for youth development and education for underserved youth in the region, is pleased to announce that it will co-host an awards dinner with the Boys & Girls Clubs of Fairfax this Friday, September 28, to celebrate community giving and impact. At the dinner, U.S. Representative Frank Wolf and NVTC Chairman John C. Lee, IV, Chairman & CEO of Lee Technologies will be honored for their contributions to both organizations. The dinner will be held at Westwood Country Club in Vienna, Va.

The dinner marks a new partnership between the Equal Footing Foundation and the Boys & Girls Clubs of Fairfax.

“The Equal Footing Foundation is excited to announce our new partnership with the Boys & Girls Clubs of Fairfax,” said Colleen Hahn, President & Executive Director, Equal Footing Foundation. “Co-hosting the awards dinner is the first step in this partnership, and we look forward to working with the Boys & Girls Clubs of Fairfax on a variety of educational and mentorship programs to the benefit of both organizations and the youth we serve every day.”

To purchase tickets or to sponsor the awards dinner, contact Tania Hindert at (703) 480-4914 or Tania.hindert@cox.com.

About the Equal Footing Foundation

Equal Footing Foundation is a Virginia based 501(C)(3) nonprofit focused on youth development and education. The Foundation’s goal is to provide an equal opportunity environment where youth can access the tools needed to successfully compete with a skilled and educated workforce. We accomplish this goal by funding, launching and sustaining Computer Clubhouses in partnership with local governments, businesses and other non-profit entities. The Computer Clubhouses we support are centrally located within established community centers, in close proximity to schools and bus routes for easy after school access. The result is an innovative and safe after-school learning center where children ages 8-18, many of whom do not have access to technology at home, work with adult mentors to learn, develop and explore their potential.
